I, Patrick L. Morgan for Mazama Resources Co.

being duly sworn, say that at least $1,110.48 (11 Bear Creek Claims)

dollars' worth, and 4.8 (8hr) days, of work and labor were performed upon the following mining claims:

NAME OF CLAIM	BLM RECORDS FOR LOCATION Serial No.	COUNTY OF Klamath RECORDS FOR LOCATION BOOK	PAGE
Bear Creek #1 thru 11	87893 thru 87903	M86	9502 thru 9512

in Chemult

State of Oregon, Mining District, County of Klamath,

for the year ending September 1, 1987.* between Sept. 1, 1986, and Sept. 1, 1987,

Such expenditure was made by or at the expense of claim holders, now registered as Mazama Resources Co., owner (or one of the owners) of said claims, for the purpose of complying with the law and holding said claims, and was made upon the Bear Creek claim #11 & 8 claims and consisted of 12 ore samples taken manually with shovels.

*Federal law requires that not less than $100 worth of labor must be performed or improvements made on a mining claim annually to hold the possessory right to the claim. The period within which the work is required to be done commences at 12:00 o'clock Meridian on the first day of September succeeding the date of location of the claim. The applicable state law should be examined to determine all requirements for an Affidavit of Proof of Labor or Improvements and the time allowed for filing affidavits since requirements and time vary from state to state.

IMPORTANT NOTICE: A mining claim is deemed abandoned under 43 U.S. Code Sec. 1744 unless a copy of the official record of an affidavit of assessment work performed, a notice of intention to hold a mining claim, or a detailed report under 30 U.S. Code Sec. 28-1 is also filed annually for recordation with the state office of the Bureau of Land Management in the state where the claim is situated on or before December 30th of each year following the calendar year in which the claim was located. Because BLM recordation regulations change periodically, you should obtain recordation regulations from your local BLM office to determine effective requirements for mining claims. Additional regulations of the BLM and Forest Service may apply to the conducting of mining operations on national forest and BLM administered lands.
