1. Outstanding valid claims, if any, existing on the date of this grant.
2. The easement herein granted is limited to use of the described right-of-way for the purpose of construction, operation and maintenance of a highway and does not include the grant of any rights for non-highway purposes or facilities: Provided, That the right of the Forest Service to use or authorize the use of any portion of the right-of-way for non-highway purposes shall not be exercised when such use would interfere with the free flow of traffic or impair the full use and safety of the highway; and Provided Further, That nothing herein shall preclude the Forest Service from locating National Forest and other Department of Agriculture information signs on the portions of the right-of-way outside of construction limits.
3. Any reconstruction of the highway situated on this right-of-way will be in accordance with plans, specifications, and written stipulations approved by the Regional Forester prior to beginning such reconstruction.
4. Consistent with highway safety standards, the Grantee shall:
 - (a) Protect and preserve soil and vegetative cover and scenic and esthetic values on the right-of-way outside of construction limits.
 - (b) Provide for the prevention and control of soil erosion within the right-of-way and adjacent lands that might be affected by the construction, operation, or maintenance of the highway, and shall vegetate and keep vegetated with suitable species all earth cut or fill slopes feasible for revegetation or other areas on which ground cover is destroyed where it is deemed necessary during a joint review between the Regional Forester and Grantee prior to completion of the highway and the Grantee shall maintain all terracing, water bars, lead-off ditches, or other preventive works that may be required to accomplish this objective. This provision shall also apply to slopes that are reshaped following slides which occur during or after construction.

5. The Grantee shall:

Establish no borrow, sand, or gravel pits, stone quarry, or permanent storage areas, sites for highway operation and maintenance facilities, camps, supply depot or disposal areas within the right-of-way unless shown on approved construction plans, without first obtaining approval of the Regional Forester.

- (a) That the described property, and its appurtenant areas and its building and facilities, whether or not on the land herein granted, will be operated as a public road, in full compliance with title VI of the Civil Rights Act of 1964 and all requirements thereunder by the Department of Agriculture and in effect on the date of this document to the end that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any programs or activities provided thereon; and

all right, title, and interest in and to the above described property and in any and all of the tenements, hereditaments and appurtenances thereunto belonging; provided, however, that the failure of the Grantor to insist in any one or more instances upon complete performance of any of the said conditions shall not be construed as a waiver or a relinquishment of the future performance of any such conditions, but the obligations of the Grantee with respect to such future performance shall continue in full force and effect.
