BOARD OF COUNTY COMMISSIONERS
In and For the County of Klamath, State of Oregon

IN THE MATTER OF THE
COMPREHENSIVE LAND USE
PLAN ASSOCIATED WITH ZONE
CORRECTION NUMBER 74-28 BY
LEWIS AND NONA HAGELSTEIN

O R D E R

This matter having come on for hearing upon the application of Lewis and Nona Hagelstein, said correction application being numbered Zone Correction 74-28 and the Comprehensive Land Use Plan map for Area No. 7 having been heretofore recommended to be changed from Forestry designation to Agriculture designation by the Klamath County Planning Commission, because of a mapping error, a description of the real property referred to in said application being marked Exhibit "A", attached hereto and by reference made a part hereof, and a public hearing on said application having been regularly held on May 21, 1974 and continued until June 24, 1974 before the Board of Commissioners, and it appearing to said Board of Commissioners from the testimony, reports, and information produced at said hearing by the applicant, interested parties, the Planning Commission and Planning Department, that the Comprehensive Land Use Plan should be changed, the Board of Commissioners makes the following findings of fact:

1. In pursuance to a request from applicants dated August 22, 1973, the Klamath County Planning Commission initiated this zone correction under Klamath County Ordinance No. 17, Article 11, Section 11.007 on behalf of the applicants.
2. The Klamath County Zoning Ordinance No. 17 was adopted on December 7, 1972 by vote of the people, after referral to them and

after the adoption of the Klamath County Comprehensive Land Use Plan text and associated maps by the Klamath County Planning Commission on August 1, 1972, pursuant to Oregon Revised Statutes, Chapter 215.

3. On December 7, 1972, and prior thereto, the applicant owned all the property marked Exhibit "A", attached hereto, being 3244 acres.

4. Prior to, and as of December 7, 1972, the property described in Exhibit "A" was being used as a cattle ranch. In addition to the raising of cattle, crops and timber were also produced on portions of the land.

5. The property is fairly variable in nature, consisting of meadow (grazing land), young stands of ponderosa pine with some stands containing a light mixture of Douglas fir and white fir, with all tree lands supporting grasses used for grazing of cattle, brush fields resulting from burns, some juniper areas, and approximately 500 acres of cropland which is used to support the ranching operation.

6. The land involved has an average or slightly below average timber-producing capability.

7. Grazing and timber production are compatible uses of the land involved and proper management of the timber improves forage production of the land for grazing purposes.

8. Past timber sales from the premises do not justify the use of the land involved solely for the production of timber.

9. No detailed research was conducted of the land use patterns for the area involved prior to the adoption of either said

Comprehensive Land Use Plan text and maps on August 1, 1972 or zoning for Klamath County on December 7, 1972.

10. A mapping error was made on the applicant's land during the initial land use study.

Based upon the above findings of fact, the Board reaches the following conclusions of law:

1. Pursuant to Section 11.007 of Ordinance No. 17 of Klamath County, the Klamath County Planning Commission acted properly in initiating this action on behalf of Lewis and Nona Hagelstein, and that no other considerations, save the correction of a mapping error, are relevant in this matter; and
2. The primary use of the land in question on December 7, 1972 was as a cattle ranch. The grazing of cattle was an essential element of this ranching operation. The raising of crops and timber were associated secondary uses; and
3. Only through an error or mistake the land had not been properly designated for the actual or intended use on Comprehensive Land Use Plan maps for the area, as adopted by the Klamath County Planning Commission on August 1, 1972, or properly zoned for the intended use on the zoning maps which, together with the Zoning Ordinance text, were referred to the people and adopted on December 7, 1972; and
4. The property affected by the Comprehensive Land Use Plan and zone correction is adequate in size, being 3244 acres more or

less, and shape to facilitate those uses normally allowed in conjunction with the agriculture designation on the Comprehensive Land Use Plan maps and the AF zoning; and

5. The property affected by the proposed Comprehensive Land Use Plan change and zone correction is properly related to county roads, streets, and highways to adequately serve the type of traffic generated by such uses that may be permitted therein; and

6. The proposed Comprehensive Land Use Plan change and zone correction will have no adverse effect on any property or the permitted uses thereof within a seven hundred (700) foot radius excluding highways and rights-of-way, as was indicated by the absence of adverse testimony from adjacent property owners; and

7. The proposed Comprehensive Land Use Plan change and zone correction are in keeping with any land use plans duly adopted and does, in effect, represent the highest, best and most appropriate use of the land affected; and

8. The application is consistent with the intent of the Klamath County adopted Comprehensive Land Use Plan maps and text.

NOW, THEREFORE, IT IS HEREBY ORDERED that the Comprehensive Land Use Plan change associated with the application for Zone Correction No. 74-28, involving the map designated Area No. 7, the application for said land use correction being from Forestry to Agriculture designation,

I am reasonably sure that there will be an appeal on this zone change application no matter how it is decided.

I have talked to interested parties about this matter and in a conversation with County Counsel, he advised me that under the Fasano decision I should have revealed such conversations early in the hearing. That because of the strong possibility of an appeal, he advised me I should disqualify myself from voting.

Although my conversations were only for the purpose of getting information, if legally they could affect an appeal, I believe in fairness, I should refrain from voting.

I wish this statement to be made a part of the record in this zone change.
