Attached as Exhibit "B" and made part of this Agreement is a map designating the area referred to in this legal description.

and,

WHEREAS, Developer intends to develop said tract, which is currently undeveloped land, and

WHEREAS, the Developer has requested and City proposes to create a tax moratorium over said land pursuant to Oregon Revised Statutes 222.111(2).

NOW, THEREFORE, it is agreed between the parties as follows:

1. Foothills Boulevard.

City agrees to make every effort to reach an agreement with Klamath County commissioners to assure Developer the County will not abandon their plans to construct Foothills Boulevard.

2. Geothermal Heating District.

Developer will be allowed to construct and operate a geothermal heating and energy district under a City twenty year franchise ordinance. The franchise ordinance will contain wording to the effect the City may purchase the system, including the heat source, at the end of twenty years.

3. Sidewalks.

City will allow Developer to use rolled curbs. The new Community Development Ordinance, as proposed, provides that the construction of sidewalks is not mandatory but is left to the discretion of the Planning Commission.

4. Tax Moratorium.

City will provide an equitable tax moratorium of 10 years which will provide Developer with a moratorium during the construction phases of the development of the above described lands. The tax moratorium will be constructed in such a manner that City taxes will not apply until three (3) years have elapsed from the date of City approval of a Conditional Use Permit for an individual phase of the development under the City zoning procedure, or until 90% of the lots in an individual phase have been sold, whichever occurs first. At such time, all property within the given development phase shall be subject to City taxes.

5. Water.

City agrees to donate to Developer the unused water tank located on Homedale Road. The tank will be donated as is and where is, and developer agrees it will be used in the water system for the development of the above described lands.

6. Golf Course and Recreation Facilities.

City and Developer will reach an agreement for the development of an 18-hole golf course and other recreation facilities upon donation of land by Developer. Said facilities may be considered as parks subject to Parks Board approval under the City subdivision ordinances, and the development will be subject to City's ability to finance the project (i.e., development by City shall be subject to obtaining of adequate funding sources).

7. Sanitary Sewer.

City will agree to cause the construction of interceptor lines to the perimeter of the above described lands.

8. Drainage.

Developer agrees to not allow more drainage into the 1-C Drain than would flow before urbanization. Developer agrees to turn the drainage system over to City when construction is completed. Further, City will inform Klamath Irrigation District and Enterprise Irrigation District that City is willing to pay for any impact to the 1-C Drain which may be attributed to urbanization of the above described lands.

IN WITNESS WHEREOF, the respective parties have executed this agreement on the dates below written.
