Pacific conducts Home Energy Analyses at the request of its customers to determine the cost-effectiveness of insulation and weatherization based upon average consumption patterns and typical local weather conditions. However, because of the variability and uniqueness of individual energy use, it is not possible to precisely predict the savings that will accrue to any particular individual. Therefore, Pacific, by providing information in good faith concerning the anticipated benefits of insulation and weatherization, or by entering into this agreement, does not warrant that the installation of

the insulation and weatherization materials provided for in this agreement will result in savings of money or electrical consumption. Pacific may petition the appropriate Oregon Legislature to amend current law to allow the Company, rather than individual owneroccupants, to receive the benefit of any tax credit accruing from the installation of energy saving materials provided for herein.
