6. Time is material and of the essence hereof, and in case of breach of any of the covenants or agreements hereof, or if default be made in the payment of any of the sums hereby secured, or if the whole or any portion of said loan shall be expended for purposes other than those specified in the original application therefor, except by the written permission of the Beneficiary, then, in any such case, all indebtedness hereby secured shall, at the election of the Beneficiary, become immediately due and payable without notice; but failure of the Beneficiary to exercise such option in any one or more instances shall not be considered as a waiver or relinquishment of the right to exercise such option upon or during the continuance of the same or any other default. In such event Beneficiary at its option may proceed to foreclose this deed of trust as a mortgage in the manner provided by law for foreclosures of mortgages or direct Trustee in writing to foreclose this deed of trust by notice and sale.

Trustee shall deliver to the purchaser at sale its deed, without warranty, which deed shall contain such recitals as may be required or permitted by law for the benefit of said purchaser and subsequent bona fide purchasers or encumbrancers for value. After deducting all costs and expenses of the sale, including reasonable trustee's and attorney's fees and the reasonable costs of searching records and abstracting or insuring the title, Trustee shall apply the proceeds of sale to the payment of all sums expended under the terms hereof not then repaid with accrued interest at the default rates provided for in the note hereby secured; all other sums then secured hereunder; and the remainder if any to the person or persons legally entitled thereto as and in the manner provided by law.

8. Beneficiary having purchased said property at Trustee's sale, Grantor agrees peaceably to surrender possession of the premises to Beneficiary in the event such possession has not previously been delivered and to pay Beneficiary the costs and expenses including a reasonable attorney's fee in any suit or action instituted by Beneficiary to obtain possession of the premises from Grantor or any occupant of the premises who entered possession by, through or under Grantor.

9. Trustee accepts this trust when this deed, duly executed and acknowledged, is made a public record as provided by law. Any trustee lawfully appointed by the Beneficiary as a substitute or successor trustee shall succeed to all of the powers and duties of the trustee named herein. Conveyance to the substitute or successor trustee shall not be required. Trustee is not obligated to notify any party hereto of pending sale under any other deed of trust or of any action or proceeding in which Grantor, Trustee or Beneficiary shall be a party, unless such action or proceeding is brought by the Trustee.

10. This deed applies to, inures to the benefit of, and binds all parties hereto, their heirs, devisees, legatees, executors, administrators, successors and assigns. The term Beneficiary shall mean the holder and owner of the note secured hereby, or if the note has been pledged, the pledgee thereof, whether or not named as Beneficiary herein.

This deed of trust secures an obligation incurred in whole or in part for the construction of an improvement on said land.

Should the interest in said land, or the stock in any grantor corporation, owned by any of the grantors, their successors or assigns, be transferred voluntarily or by operation of law without the consent of the beneficiary, then the beneficiary, at its option, may declare the entire indebtedness secured hereby forthwith due and payable, provided that no consent be required after reduction of the principal balance of the indebtedness to \$55,000.00.

11. Neurospora crassa is a model organism for studying the molecular basis of circadian rhythms. It is a filamentous fungus that grows as hyphae. The circadian clock in *N. crassa* is controlled by a set of genes, including *clock*, *period*, and *timeless*. The *clock* gene encodes a protein that acts as a transcription factor, regulating the expression of the *period* and *timeless* genes. The *period* and *timeless* genes encode proteins that form a complex that inhibits the *clock* protein, creating a negative feedback loop. This loop is responsible for the oscillatory nature of the circadian clock. The *clock* gene is expressed in a rhythmic manner, with peaks of expression occurring at specific times of day. The *period* and *timeless* genes are also expressed in a rhythmic manner, but their expression is delayed relative to the *clock* gene. This delay is due to the time it takes for the *clock* protein to accumulate and bind to the promoter of the *period* and *timeless* genes. The resulting complex then inhibits the *clock* protein, preventing further expression of the *period* and *timeless* genes. As the *clock* protein levels decline, the inhibition is lifted, and the *period* and *timeless* genes are expressed again, completing the cycle.
