

- A. Except as hereinafter limited, Grantee shall have the right to use the road on the premises without cost for all purposes deemed necessary or desirable by Grantee in connection with the protection, administration, management, and utilization of Grantee's lands or resources, now or hereafter owned or controlled, subject to such traffic control regulations and rules as Grantee may reasonably impose upon or require of other users of the road. Grantee shall have the right to construct, reconstruct, and maintain roads within the premises.

Grantee alone may extend rights and privileges for use of the premises to other Government Departments and Agencies, States, and local subdivisions thereof, and to other users including members of the public except users of lands or resources owned or controlled by Grantor or its successors: Provided, That such additional use also shall be controlled by Grantee so it will not unreasonably interfere with use of the road by Grantor or cause the Grantor to bear a share of the cost of maintenance greater than the Grantor's use bears to all use of the road.

- B. Grantee shall have the right to cut timber upon the premises to the extent necessary for constructing, reconstructing, and maintaining the road. Timber so cut shall, unless otherwise agreed to, be cut into logs of lengths specified by the timber owner and decked along the road for disposal by the owner of such timber.
- C. Grantor shall have the right to charge and enforce collections from purchasers of timber or other material when removed from Grantee's lands over the road at such rate per unit of material hauled, or at such higher rate as may be approved by the Regional Forester, as set forth in Fremont-Weyerhaeuser Road Right-of-Way Construction and Use Agreement dated July 1, 1971, as amended, until such time as the amounts paid by such means or by credits received from Grantee shall total the amount set forth in said agreement. Timber or other materials hauled by Grantor from lands of the Grantee shall be regarded as though hauled by someone else.
- D. The costs of road maintenance shall be allocated on the basis of respective uses of the road.

During the periods when either party uses the road or Grantee permits use of the road by others for hauling of timber or other materials, the party so using or permitting such use will perform or cause to be performed, to contribute or cause to be contributed that share of maintenance occasioned by such use of the road.

On any road maintained by Grantor, Grantor shall have the right to charge purchasers of National Forest timber and other commercial haulers, or to recover from available deposits held by Grantee for such purchasers or haulers, reasonable maintenance charges based on the ratio that said hauling bears to the total hauling on such road. Grantee shall prohibit noncommercial use unless provision is made by Grantee or by the noncommercial users to bear proportionate maintenance costs.

This easement is granted subject to the following reservations by Grantor, for itself, its permittees, contractors, assigns and successors in interest:

1. The right to use the road for all purposes deemed necessary or desirable by Grantor in connection with the protection, administration, management, and utilization of Grantor's lands or resources, now or hereafter owned or controlled, subject to the limitations herein contained, and subject to such traffic control regulations and rules as Grantee may reasonably impose upon or require of other users of the road without reducing the rights hereby reserved: Provided, however,
