Excerpts from the mining laws of the United States, 30 U.S. Code Annotated

Sec. 28-" ** * The location must be distinctly marked on the ground so

517.010. Location of mining claims upon veins or lodes. (1) Any person, a citizen of the United States, or one who has declared his intention to become such, who discovers a vein or lode of mineral-bearing rock in place upon the unappropriated public domain of the United States within this state, may locate a claim upon such vein or lode by posting thereon a notice of such discovery and location. The notice shall contain:

(a) The name of the lode or claim.

a.

(b) The names of the locators.

The second second

(c) The date of the location.

× ...

(d) The number of linear feet claimed along the vein or lode each way from the point of discovery, with the width on each side of the lode or vein.

(e) The general course or strike of the vein or lode as nearly as may be, with reference to some natural object or permanent monument in the vicinity, and by defining the boundaries upon the surface of each claim so that the same may be readily traced.

(2) Such boundaries shall be marked within 30 days after posting of such notice by aix substantial posts, projecting not less than three feet above the surface of the ground, and not less than four inches square or in diameter, or by substantial mounds of stone, or earth and stone, at least two feet in height, to-wit: one such post or mound of rock at each corner and at the center ends of such claims.

that its boundaries can be readily traced. All records of mining claims *** shall contain the name or names of the locators, the date of the location, and such a description of the claim or claims located by reference to some natural object or permanent monument as will identify the claim.***

Sec. 34—"The description of vein or lode claims upon surveyed lands shall designate the location of the claims with reference to the lines of the public survey, but need not conform therewith ***."

Excerpts from Chapter 517, Oregon Revised Statutes Re: Location-Vein and Lode Claims

517.030. Recording copy of location notice: fee. The locator shall, within 60 days from the posting of the location notices by him upon the lode or claim, file for record with the clerk of the county where the claim is situated, who shall be the custodian of mining records and miners' liens, a copy of the notice posted by him upon the lode or claim and shall pay the clerk a fee as set by ordinance of the county governing body for such record, which sum the clerk shall immediately pay over to the treasurer of the county and shall take his receipt therefor, as in case of other county funds coming into the posses sion of such officer. The clerk shall immediately record the location notice.

517.040. Abandoned claims. Abandoned claims are unappropriated min-eral lands, and titles thereto shall be obtained as specified in ORS 517.010 to 517.030, without reference to any work previously done thereon.

511.030, without reterence to any work previously done thereon. 517.060. Correcting defective notice of location. If at any time an in-dividual who has located a mining claim within the meaning of ORS 517.010 or 517.044, or his assigns, apprehends that the original notice of location of the mining claim was defective, erroneous, or othat the requirements of the law had not been complied with before the filing of the spotted by law, an amended notice of the location which shall relate back to the date of the original location; provided, that the posting and filing of the amended notice of location shall not interfere with the existing rights of others at the time of posting the amended notice.

CAUTION: The laws of nearly all western states contain special requirements for location notices. These requirements differ from state to state. The Oregon requirements are used for this form. If the claim for which this form is used is situated outside of Oregon, change the name of the state on the reverse side situated to ensure that the notice contains all things required.

CLAIM INFORMATION

Necessary steps in locating a vein or lode claim,

1. Make a discovery of a valuable mineral deposit on federal land that is () open to mineral entry and location.

2. Post a completed notice of location at the point of discovery on a post or monument.

3. Stake claim within 30 days of date of posting notice.

4. File copy of notice of location with county clerk for the county in which the claim is located. Filing fee is as set by ordinance of the county governing body. Notice may be mailed in for recording. Notice must be recorded within 60 days from the posting of the notice on the claim.

5. Record the claim with the BLM state office within 90 days after the date of location of the claim. If record by mail, obtain a return receipt.

Area and shape of a vein or lode claim. 2 2016 51 626 UM (CHE OL 2011 CELLION

Area and sample of a vein or lode chain. (A' (A' vein or lode claim can be not; more than 1500 feet in length and can extend not more than 300 feet on either side of the vein or lode (Fig. 1-A). A' full sized yein or lode claim embraces an area of slightly more than 20% acres. Although most claims are rectangular they may have a variety of shapes, the only requirement being that the end-lines be parallel. In the case of non-rectangular claims it should be noted that the end-lines need not be limited to 600 feet in length (Fig. 1-B). (Cont 10)

Requirements of a vein or lode claim (Fig. 1-C); (

1. Location notice posted at or near point of discovery.

2. At a minimum, four claim corner posts, or mounds of stone, and two center end posts, or mounds of stone. All posts must be at least 4 inches square or in diameter, and must project at least 3 feet above the ground. Mounds of stone, or earth and stone, must be at least 2 feet in height.

IMPORTANT NOTICE: A mining claim is deemed abandoned under 43 U.S. Code Sec. 1744 unless a copy of the official record of the notice of location is filed with the state office of the Bureau of Land Management in Portland within 90 days after the date of location of the claim. Because BLM recordation regulations change periodically, you should obtain recordation regulations from your local BLM office to determine effective requirements for recordation of notices of location, affidavits of annual assessment work, and notices of interior to hold a mining claim. Additional regulations of the BLM and the Forest Service may apply to the conducting of mining operations on national forest and BLM administered lands.
