that its boundaries can be readily traced. All records of mining claims *** shall contain the name or names of the locators, the date of the location, and such a description of the claim or claims located by reference to some natural object or permanent monument as will identify the claim.***

Excerpts from the mining laws of the United States, 30 U.S. Code Annotated

Sec. 23....... A mining claim ••• may equal, but shall not exceed, one thousand five hundred feet in length along the veln or lode; but no location of a mining claim shall be made until the discovery of the vein or lode within the limits of the claim located. No claim shall extend more than three hundred feet on each side of the middle of the vein at the surface •••. The end lines of each claim shall be parallel to each other."

Sec. 28----- * The location must be distinctly marked on the ground so Excerpts from Chapter 517, Oregon Revised Statutes Re: Location-Vein and Lode Claims

517.010. Location of mining claims upon veins or lodes. (1) Any person, a citizen of the United States, or one who has declared his intention to become unappropriated upon such vein or lode of mining States within this state, may locate a claim upon such vein or lode by posting thereon a notice of such discovery and location. The notice shall contain:

(a) The name of the lode or claim.

(b) The names of the locators.

(c) The date of the location.
(d) The number of linear feet claimed along the vein or lode each way at the point of discovery, with the width on each side of the lode or vein.

from the point of discovery, with the width on each side of the lode or vein.
(e) The general course or strike of the vein or lode as nearly as may be, with reference to some natural object or permanent monument in the vicinity, and by defining the boundaries upon the surface of each claim so that the same may be readily traced.

same may be readily traced.
(2) Such boundaries shall be marked within 30 days after posting of such notice by six substantial posts, projecting not less than three feet above the surface of the ground, and not less than four inches square or in diameter, by substantial mounds of stone, or earth and stone, at least two feet in height, towit: one such post or mound of rock at each corner and at the center ends of such claims.

CLAIM INFORMATION

Necessary steps in locating a vein or lode claim.

1. Make a discovery of a valuable mineral deposit on federal land that is open to mineral entry and location. 2. Post a completed notice of location at the point of discovery on a post

or monument.

3. Stake claim within 30 days of date of posting notice.

3. Stake claim within av uays of date of posting notice.
4. File copy of notice of location with county clerk for the county in which the claim, is located. Filing fee is as set by ordinance of the county coverning body. Notice may be mailed in for recording. Notice must be recorded within 60 days from the posting of the notice on the claim. corosed within 50 days from the possing of the notice on the chain, 5. Record the claim with the BLM state office within 90 days after the date of location of the claim. If record by mail, obtain a return receipt.

Area and shape of a vein or inde claim. I State of the unit of the cities of

Area and shape of a vein or lode claim. Weile fit in 16 to 19 [16] of a weile of a vein or lode claim can be not more than 1500 feet in length and can be not more than 300 feet on lote of the vein or lode (Fig. 1-A). A full sized vein or lode claim embraces an area; of slightly more than 20% of a full sized vein or lode claim are rectangular they may have a variety of non-rectangular claims it should be noted that the end-lines need not be limited to 600 feet in length (Fig. 1-B).

Requirements of a vein or lode claim (Fig. 1-C). 1. Location notice posted at or near point of discovery. 1. Location notice posted at or near point or discovery. 2. At a minimum, four elaim corner posts, or mounds of stone, and two center end posts, or mounds of stone, All posts must be at least 4 inches square or in diameter, and must project at least 3 feet above the ground. Mounds of stone, or earth and stone, must be at least 2 feet in height.

517.030, without reference to any work previously done thereon. 517.050. Correcting defective notice of location. If at any time an in-dividual who has located a mining claim within the meaning of ORS 517.010 to 517.040. Correcting the the original notice of location of the same and the same and the same and the requirements of the the mining claim was defective, erroneous, or that the requirements of the law had notice of the location which had relate back to the date of the assigns motice of the location which shall relate back to the date of the original location; provided, that the posting and filing of the and notice of location shall not interfere with the existing rights of others at the time of posting the amended notice.

attes Re: Location-Yein and Lode Claims 517.030. Recording copy of location notice; fee. The locator shall, within 60 days from the posting of the location notices by him upon the lode or claim, file for record with the clerk of the county where the claim is situated, who shall be the custodian of mining records and miners' liens, a copy of the notice posted by him upon the lode or claim and shall pay the clerk a fee as by ordinance of the county governing body for such record, which sum the clerk shall immediately pay over to the treasurer of the county and shall take lis receipt therefor, as in case of other county funds coming into the posses-sion of such officer. The clerk shall immediately record the location notice.

517.040. Abandoned claims. Abandoned claims are unappropriated min-eral lands, and titles thereto shall be obtained as specified in ORS 517.010 to 517.030, without reference to any work previously done thereon.

CAUTION: The laws of nearly all western states contain special requirements for location notices. These requirements differ from state to state. The Oregon requirements are used for this form. If the claim for which this form is used is situated outside of Oregon, change the name of the state on the reverse side and, before locating the claim, carefully check this location notice will, the laws of the state and the regulations of the mining district in which the claim is situated to ensure that the notice contains all things required. Vein or 100e or pincer 10021107. A placer discovery will not sustain a lode location, nor will a lode dis-covery sustain a placer location. Vein or lode claims are generally located where minerals occur in place in veins or lodes. For a lode claim there must be "** veins or lodes of quartz or other rock in place bearing rold, silver, cin-anbar, lead, tin, copper or other valuable deposits * * *: 30 U.S. Code Sec. 23. Placer claims are generally located where minerals have been derived from rocks or veins to form deposits such as stream gravels and gold-bearing al-luvium.
