creases in the interest rate will result in higher payments. Decreases in the interest rate will result in lower payments. It could be that the loan secured by the Security Instrument is subject to a law which sets maximum loan charges and that law is interpreted so that the interest or other loan charges collected or to be collected in connection with the **B. LOAN CHARGES** loan would exceed permitted limits. If this is the case, then: (A) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (B) any sums already collected from Borrower which exceeded permitted limits will be refunded to Borrower. Lender may choose to make this refund by reducing the principal

owed under the Note or by making a direct payment to Borrower.

If Lender determines that all or any part of the sums secured by this Security Instrument are subject to a lien which has priority over this Security Instrument, Lender may send Borrower a notice identifying that lien. Borrower shall promptly act with regard to that lien as provided in paragraph 4 of the Security Instrument or shall promptly

secure an agreement in a form satisfactory to Lender subordinating that lien to this Security Instrument. D. TRANSFER OF THE PROPERTY

If there is a transfer of the Property subject to paragraph 17 of the Security Instrument, Lender may require (1) an increase in the current Note interest rate, or (2) an increase in (or removal of) the limit on the amount of any one interest rate change (if there is a limit), or (3) a change in the Base Index figure, or all of these, as a condition of Lender's

waiving the option to accelerate provided in paragraph 17.

By signing this, Borrower agrees to all of the above.
