

GRANT OF EASEMENT AND SALE OF INTEREST IN WELL

Deed made this 23rd day of May, 1988, between JAMES GALLAGHER and CYNTHIA GALLAGHER, husband and wife, of Chiloquin, Oregon, herein referred to as "Grantor", and R. LEONARD GARRISON of San Rafael, California, herein referred to as "Grantee."

- 1) Grantor is the owner of a tract of land described in "Exhibit A" attached hereto and made a part hereof.
- 2) Grantee is the owner of a tract of land described in "Exhibit B" attached hereto and made a part hereof.
- 3) There is on the above-mentioned tract of land of Grantor a well, together with casing, pump, storage tank, pipe and motor used in connection therewith, belonging to Grantor.

Therefore, in consideration of the sum of TWENTY THOUSAND (\$20,000.00) AND NO/100s DOLLARS, receipt of which is hereby acknowledged, and subject to the conditions set forth in this instrument:

- 1) Grantor does hereby grant, sell, and convey to Grantee ownership of the above-mentioned well, casing, pump, storage tank, motor and pipe conveying water to Grantee's property free and clear of all liens, claims and encumbrances, and further, the right to take water from the well and to convey such water from the well to Grantee's above-described tract of land, or other lands, by the pipe; and
- 2) Grantor hereby grants to Grantee, for the use and purpose of storing and conveying such water as above described and entering onto and over Grantor's land for maintenance and repair (including motor vehicles), an easement on, in, over and across a strip

of land fifteen (15) feet in width, the centerline of such strip of land beginning at the well and extending in a southerly direction to Grantee's property. Said easement is to be appurtenant to the land described in "Exhibit B" and shall be perpetual and run with the ownership of the land described in "Exhibit B."

This conveyance is made on the condition that Grantee, his heirs and assigns, shall allow Grantor domestic use of the water for one single-family residence, to have and to hold such right and easement to take water, and to store and to conduct the same over, on, through and across the land of Grantor, subject, however, to the above conditions to Grantee, his heirs and assigns, forever. Conveyance herein by the Grantor shall not reduce or restrict or impede Grantor's right to sufficient water from said well for the aforesaid domestic purposes.

If Grantor decides to use water for irrigation of 40 acres of land associated with Grantor's above-described property, then all costs of operation shall be shared in proportion to the amount of water actually used by Grantor and Grantee; provided, in no event shall Grantor's use for irrigation diminish the supply provided to Grantee below 150 gallons per minute.

Likewise, the grant of the rights to the well shall not impede the present interest of Donna Fitzpatrick to water she presently consumes from said well to provide service to the property described in "Exhibit C" attached hereto and made a part hereof. However, the rights of Donna Fitzpatrick shall not be increased beyond that water she presently consumes for a single-family residence. If the Fitzpatrick property is conveyed to a third

party, the right to the water will go with the property; however, Grantee, at his sole discretion, may impose a reasonable charge customary to the area for said water usage.

If Grantee should abandon usage of the well, the well and all equipment shall revert to Grantor.

IN WITNESS WHEREOF, Grantor and Grantee have hereunto set their hands on the date first above written.
