Vol 92 Page 16209

BEFORE THE PLANNING DIRECTOR
KLANATH COUNTY, OREGON

IN CONSIDERATION OF THE REQUEST OF T. & B. MALLON FOR A LAND PARTITION IN CONJUNCTION WITH AGRICULTURAL USE (LP 38-92)

CEDEF

1. NATURE OF THE REQUEST

The applicant wishes to partition property in conjunction with permitted uses in the Agricultural zones. The property contains 473 acres and the request is to allow the division of the property into two parcels, one of 150 and a second of 323 acres.

This request was reviewed by the Planning Director JULY 22, 1992 pursuant to Ordinances 44 and 45. The request was reviewed for conformance with Land Development Code section 54.070 and O.R.S. 215.243.

2. NAMES OF THOSE WHO PARTICIPATED:

The Planning Director in review of this application was Carl Shuck. The Planning Department report was prepared by Kim Lundahl, Senior Planner.

3. LEGAL DESCRIPTION:

The subject property is correctly depicted on the preliminary map of LP 38-92 and is located north of Beatty east of the intersection of Drews Ranch Rd. and Godowa Springs Rd..

4. RELEVANT FACTS:

The property is within the Agricultural plan designation and has an implementing zone of EFU-C1. The property is 473 acres in size and is under Farm Deferral. Staff review indicates the property is presently used as grazing land and devoted to agricultural production.

A. ACCESS: The property is accessed by Godowa Springs Rd., a county maintained paved road extending north from State Hwy 140.

B. FIRE PROTECTION: The property is within a volunteer structural fire protection district (Beatty VFD).

C. LAND USE: The property is a parcel of 473 acres of agricultural property. The adjacent properties are found to be devoted to agricultural use in all compass directions and is located in a valley developed for agricultural use.

D. SLOPE: Available topographic mapping indicates the property is in a valley with essentially level areas.

E. SOILS: The Soil Conservation Service mapping of the site indicates the property is within the Robert associations. These series are rated as Class IV for Land Capability Classification. These soils and their specific properties are set out in the U.S.D.A. publication SOIL SURVEY OF KLAMATH COUNTY, SOUTHERN PART, on file in the Planning Department. It is clear these soils are adequate for agricultural uses.

5. FINDINGS:

All evidence submitted as the staff report, exhibits b-e, and all offered evidence show that the approval criteria as set out in the code has been satisfied.

A. The Planning Director finds this application conforms with the criteria set out in L.D.C. section 54.070 and O.R.S. 215.243 as follows:

1. The parcels as proposed do conform to the typical size existing commercial farm units surrounding the property. The land use in all compass directions is found to be similar in nature to the use of the subject property. Grazing and field crop production are the use of all properties in the area. These are permitted uses in the Agricultural zones. The proposed parcel sizes are consistent with the area and continued use as agricultural parcels.

B. The proposed parcels are of sufficient size to support the existing or potential commercial farm production. Surrounding farm units range in size from five to two hundred twenty, with many in the 100 acre size.

The parcel sizes proposed are above this average within one mile.

C. Additional findings as required by section 54.070 include:

Each parcel proposed is sufficient in area to support the existing or potential commercial production of farm products when parcel size, soil classification, and typical yields are taken into consideration. Each parcel is large in size and consists of Class IV type soils.

The Planning Director finds the parcels can be operated as viable commercial farm units. The Planning Director specifically finds that the smallest parcel is as an economically viable agricultural parcel.

D. The Planning Director finds this application in furtherance of O.R.S. 215.243 since it will continue the agricultural use of all parcels and will not result in any "urbanization" of this area.

6. ORDER:

Therefore, it is ordered the request of Tom & Beverly Mallom for approval of LP 33-92 is approved subject to the following conditions:

1. Applicant must comply with agency conditions and code requirements prior to filing.
2. The final plat for the partition must be prepared by a Registered Land Surveyor.

DATED this 22nd day of JULY, 1992

Carl Shuck
Carl Shuck, Planning Director

NOTICE OF APPEAL RIGHTS

You are hereby notified that this decision may be appealed to the Klamath County Board of Commissioners by filing with the Planning Department a Notice of Appeal as set out in Article 33 of the Code, together with the required fee within seven days of the date of mailing of this decision. The notice must be received by the Planning Department no later than 5:00 P.M. on the seventh day of next business day if the seventh day falls on a week-end or holiday. Failure to file a notice of appeal within the time provided will result in the loss of your right to appeal this decision.

LP 33-92 MALLOM
