

Monday

July 26 - 1976

To Whom this Notation ~~may~~ may Concern.
 While Working for Patterson Construction Company
 As a Dragline Operator, Widning the Bureau of Reclamation
 Straits Drain.

I drove to work from Merrill to the Job on -
 Lower Klamath Lake Road, on the morning of -
 July 26-1976 At 2:00 P.M. I got to the Junction of -
 Lower Klamath Lake Road! And what is called
 The Red Road! Just before I got to that point
 I could hardly see to stay on the Road for so
 much Steam, then when I got throo it I looked
 Back and could not see the Well drilling Rig
 At all, But I could see a glare of lights throo
 The Steam which would be the Well driller Rig
 In a couple of days the Well driller Pooled Out.
 So I figured they must of hit what they wanted.
 Interesting to see so much Steam in one spot.
