SECURITY AGREEMENT AND MASTER SALES AGREEMENT

1. Buyer agrees that Computrend Systems Inc. (Seller) will maintain a security interest in all goods sold and delivered. Buyer will advise Seller on demand as to the location of all goods in his possession. Buyer will execute on demand a UCC-1 or similar financing statement to perfect Seller's rights in the goods. If Buyer fails to execute such a document Seller may do so and sign Buyer's name. Buyer irrevocably appoints Seller as his attorney in fact to place said signature on the document and record it with the appropriate authorities.

2. If Buyer fails to pay as agreed, or otherwise defaults, Seller may repossess the goods, and may enter onto private property to do so, and may enter any structure to do so. Buyer is obligated to assemble the goods. If the goods are repossessed, Seller may exercise all rights of the California Commercial Code or the similar statutes in any state where the goods are taken. Upon repossession, the Seller may sell without notice and at private sale, to the greatest extent allowed by law, and may sell at any commercially reasonable manner.

3. Seller has all rights under law. All rights are cumulative. If Seller has to go to court to enforce this Agreement, the prevailing party shall recover reasonable attorney's fees. Suit can only be brought in the appropriate court in Los Angeles County, California. This Agreement is governed by California law.

4. Buyer will not assign or pledge the goods until payment is made in full. Any such assignment or pledge shall be void.

5. The terms and conditions of this Agreement apply to all sales made between the parties. The price, terms of payment, delivery information, and all matters including warranty information placed on the front or reverse of the invoice delivered by Seller in connection with the sale shall be the terms of sale. If no payment terms are specified, then the terms of payment are C.O.D. Time is of the essence. The terms of Seller's Invoice and this Agreement shall take precedence over anything in Buyer's Purchase Order.

I/We agree to the above and state that all information in the credit application is true, and you have the right to check all credit sources, and the credit of any guarantors. If any information is false, then Seller can declare all sums due and owing and exercise any rights to security.
