 - A. the permanent, exclusive right, license, liberty, privilege and easement on, over, upon, across, along, in, under and through a 50-foot-wide strip of the lands of the Grantor (the "Right-of Way"), depicted on Schedule "A" attached hereto and made a part hereof, to lay, construct, maintain, inspect, repair, replace, relocate, change the size of, operate, reconstruct, repair, remove and abandon, and all activities related thereto, for:
 - (i) a single underground pipeline and other underground facilities, appurtenant or incidental thereto, including, without limiting the generality of the foregoing, all such pipeline, drips, valves, fittings, connections, meters, cathodic protection equipment, test leads and other equipment and appurtenances, whether or not similar to the foregoing, as may be useful or convenient in connection with the carriage, transmission, conveyance, transportation and handling of natural gas or any other material or substance which can be conveyed therein together with such related facilities or works required therefor (including any means of communication) and all other present or future purposes of said equipment and facilities (collectively the "Pipeline System"); and
 - B. the right of ingress to and egress from the Right-of-Way and over, above and across said lands of the Grantor by means of aircraft, roads and lanes thereon, if such there be, otherwise by such practicable route or routes as shall occasion the least damage and inconvenience to the Grantor; for the Grantee and its servants, agents, employees and contractors, on foot and/or with aircraft, vehicles, supplies, machinery and equipment for all purposes useful or convenient in connection with or incidental to the exercise and enjoyment of the rights herein granted in connection with the installation, repair, maintenance, inspection, operation and replacement of the Pipeline system upon terms and subject to the conditions hereinafter set forth; and
 - C. in addition to the foregoing, the Grantor hereby grants to the Grantee the right to use an additional 50-foot-wide work area either adjacent to either side of or split on each side of the Right-of-Way as is required by the Grantee during construction, final cleanup and maintenance of the Pipeline System (the "Work Space").

2. **Additional and Final Payment:** The Grantee agrees not to exercise any Easement Rights, with respect to the Pipeline System, as applicable, except for the purpose of surveying and collecting data, unless and until the Grantee notifies the Grantor of its intention to construct the Pipeline System. Prior to the commencement of the actual construction of the Pipeline System, hereunder, Grantee shall pay to Grantor the sum of Two thousand five hundred sixty-five and 11/100 Dollars (\$ 2,565.90), (hereafter called "Additional Payment") which sum, together with the consideration recited above, shall constitute the full consideration for the Easement Rights and the Right-of-Way for the Pipeline System herein granted, it being understood and agreed, however, that the Grantee is not obligated to make the Additional Payment unless Grantee elects to construct the Pipeline System.
3. **Covenant Subject to Early Termination:** This Grant and the Easement Rights are and shall be of the same force and effect to all intents and purposes as a covenant running with the lands of the Grantor; provided, however, that should the Grantee fail to notify Grantor on or before the first anniversary of the execution date of this Grant of Grantee's intention to construct the Pipeline System and pay to the Grantor the Additional Payment, then this agreement shall terminate and the Easement Rights shall be thereafter deemed null and void.
4. **Compensation for Damages:** Grantee will compensate the Grantor for all reasonable amounts incurred by Grantor for damages suffered by the Grantor to any drainage system, crops, pasture, timber, trees, hedges, produce, water wells, artesian springs, livestock, buildings, fences, culverts, bridges, lands, improvements or equipment on the lands of the Grantor as a result of the construction of the Pipeline System and/or Communication System, as applicable. The Grantee shall indemnify the Grantor from all liabilities, damages, claims, suits and actions and all costs and taxes and any interest accruing thereon, arising from such actions as a result of the operation of the Grantee other than liabilities, damages, claims, suits and actions resulting from the gross negligence or willful misconduct of the Grantor.
5. **Use of Right-of-Way by Grantor:** The Grantor shall not, without the prior written consent of the Grantee, plant trees, build, excavate, quarry, mine, cultivate, construct, drill, install, erect, pile or permit to be built, excavated, quarried, mined, cultivated, constructed, drilled, installed, erected or piled on, over or under the Right-of-Way, any pit, well, quarry, mine, foundation, building, pavement, road, path, landfill, dump or mounds of any material whatsoever, or any other structure, installation, or improvement. At anytime after the Pipeline System has been constructed, as applicable, the Grantee shall have the right, without being liable for damages or being required to compensate the Grantor, to trim and to cut down and to clear away any and all trees, brush or obstructions, or otherwise maintain the visibility along and the integrity of the Right-of-Way and to trim and to cut down and to clear away any trees on either side of the Right-of-Way which, in the opinion of Grantee, may be a hazard to Grantee's facilities or may interfere with the exercise of Grantee's rights hereunder.

7. **Location Markers:** Grantor further grants to Grantee the right to mark the location of the Right-of-Way by suitable markers set in the ground, provided that the said markers shall be placed at fence lines or other locations which shall not interfere with any reasonable use the Grantor shall make of the Right-of-Way.

A copy of said Notice of Location shall be delivered to Grantor.
9. **Property in Pipeline System :** The Pipeline System shall at all times remain the property of the Grantee notwithstanding that it may be annexed or fixed to the freehold and shall at any time and from time to time be removed in whole or in part by the Grantee.
10. **Notices:** All notices required or permitted to be given hereunder shall be in writing, and sent by First Class mail to the applicable address set forth above (or to such other address as either party may from time to time designate in writing on such matter). Any notice sent shall be deemed to have been validly and effectively given on the fifth business day following the date on which it was sent.

This Grant shall be binding upon the heirs, executors, administrators, successors in title, successors and assigns of the parties hereto, and all rights herein granted, or any of them separately, may be assigned in whole or in part.
