4. INTEREST RATE AND MONTHLY PAYMENT CHANGES

(A) Change Dates

The interest rate I will pay may change on the first day of JANUARY , 1997, and on that day every 12th month thereafter, Each date on which my interest rate could change is called a "Change Date."

(B) The Index

Beginning with the first Change Date, my intensity average yield on United States Treasury securities at issued to a constant maturity of 1 year, as made available by the Federal Reserve Board. The most recent Index figures available as of the date 45 days before each Change Date is called the "Current Index."

If the Index is no longer available, the Note Ho der will choose a new index which is based upon comparable information. The Note Holder will g_i e me notice of t is choice.

(C) Calculation of Changes

Before each Change Date, the No e Holder will ca culate my new interest rate by adding

TWO AND SEVEN-EIGHTHS percentage points) (2.875 %) to the Current Index. The Note Holder will then round the result of this addition to the nearest one eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(D) below, it is rounded amount will be my new interest rate until the next Change Date.

The Note Holder will then eleteratine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in full on the Maturity Date at my new interest rate in substantially equal payments. The result of this calculation will be the new amount of my monthly payment.
