(A) Champe Dates

The interest rate I will pay may change on the first day of May, 1998, and on that do every 12th month thereafter. Each date on which my interest rate could change is called a "Change Date." and on that day

Paginning with the first Change Date, my Interest rate will be based on an Index. The "Index" is the weekly average yield on United States Treasury securities adjusted to a constant maturity of 1 year, as made available by the Federal Reserve Board. The most recent Index figure available as of the date 45 days before each Change Date is called the "Current Index."

It the Index is no longer available, the Note Holder will choose a new index which is based upon comparable information. The Note Holder will give me notice of this choice.

(C) Calculation of Changes

Before each Changs Date, the Note Holder will calculate my new interest rate by adding Three and One / Quarter percentage points (3.2500 %) to the Current index. The Note Holder will then round the result of this addition to the nearest one-eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(D) below, this rounded amount will be my new interest rate until the next Change Date.

The Note Holder will then determine the smount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in full on the maturity date at my new interest rate in substantially equal payments. The result of this calculation will be the new amount of toy monthly payment.

(D) Limits of Interest Rate Changes

The interest rate I am required to pay at the first Change Date will not be greater than 11.2500 % or less than 7.2500 %. The eater, my interest rate will never be increased or decreased on any single Change Date by increation two percentage points (2.0%) from the rate of interest I have been paying for the praceding twelve months.
