SEC. 43

CONTRACT OF H. H. VAN VALKENBURG ET UX FOR WATER
SUPPLY PURSUANT TO THE WARREN ACT

*Purchased by C-14-11 B-123
Rt 3, Box 290*

THIS AGREEMENT, Made this 29th day of July, 1935, in
pursuance of the Act of Congress of June 17, 1902, (32 Stat., 350
and acts amendatory thereof or supplementary thereto, and in par-
ticular Section 2 of the Act of Congress approved February 21,
1911 (36 Stat., 925) known as the Warren Act, by and between the
UNITED STATES OF AMERICA, represented by the contracting officer
executing this contract, and hereinafter referred to as the United
States, and H. H. VAN VALKENBURG and EMMA VAN VALKENBURG, his wife
hereinafter styled the Contractor, his heirs, administrators,
executors, successors and assigns.

WITNESSETH, That -

2. WHEREAS, the Contractor proposes to irrigate One Hundred
Fifty (150.0) acres of land, hereinafter described, by utilizing
Klamath Project water rights, available in the Klamath River for
the use of said Contractor for pumping the same upon lands herein-
after described;

Now, THEREFORE, it is agreed as follows:

3. The United States shall deliver in Klamath River at
the outlet of Upper Klamath Lake, for pumping and distribution
to and upon the lands of the Contractor described as follows:

*Const. Char 7-0 paid 1049 in July 1950
B.I.I. No. C-168*

20.0 acres in SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 22, 30.0 acres in SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 22, 30.0 acres in W $\frac{1}{2}$ NE $\frac{1}{4}$ and W $\frac{1}{2}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 27, 30.0 acres in W $\frac{1}{2}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$ and W $\frac{1}{2}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 27, and 40.0 acres in NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 26, all in Township 39 South, Range 8 East, Willamette Meridian, in all a total of 150.0 acres, as shown on the attached blue print map marked Exhibit "A",

a sufficient quantity of water during the irrigation season of each year hereafter, not exceeding such quantity as may be beneficially used upon said lands, for irrigation of irrigable lands of the Contractor as herein described, and not exceeding One Hundred Fifty (150.0) acres. The quantity of water sufficient for the irrigation of said 150.0 acres of land shall be as determined by the Secretary of the Interior of the United States or his duly authorized agent, and his determination shall be conclusive as against the parties hereto.

4. The Contractor will provide himself with such diversion and pumping equipment as in his judgment may be necessary to divert and distribute the water to be used by the terms of this agreement and shall maintain the same at his own expense. In addition the Contractor will install and maintain at his own expense such metering equipment as in the opinion of the said Secretary, or his duly authorized agent, may be necessary to determine the quantity of water diverted to and used upon said land each irrigation season, and shall make meter readings therefor available monthly to the Project Superintendent of the Klamath Project. And shall permit said Superintendent to have access to, and to test and read, said meter to determine the quantity of water delivered under the terms of this agreement.

5. The United States shall not be liable for failure to supply water under the terms of this contract due to hostile diversion, drought, interruption to stream flow in the river made necessary by repairs, damages caused by floods, unlawful acts or unavoidable accidents.

6. The Contractor agrees to pay the United States for the use of said water the sum of Nine Hundred Dollars (\$900.00) in twenty (20) equal consecutive annual instalments, the first of which shall be paid on execution of this agreement, and a like payment on the first day of December of each of the remaining nineteen (19) years thereafter.

7. In addition to the sum agreed to be paid by the Contractor to the United States or to its successors and assigns in the control of the operation and maintenance of the Klamath Project pursuant to the terms of the preceding article, the Contractor agrees to pay the United States, or its successors and assigns, as an operation and maintenance charge his proper proportion of the cost of regulating the water level of Upper Klamath Lake, and any cost incurred by the United States, or its successors and assigns, in delivering to the Contractor any water as provided by the terms of this contract, including such amount for overhead charges as may be fixed by the said Secretary of the Interior whose determination of such operation and maintenance costs shall be conclusive of the rights of the parties hereto. It is further agreed that such operation and maintenance costs shall not be less than five (5) cents per acre per annum upon said 150.0 acres of

irrigable land, and the Contractor hereby agrees to pay \$7.50 upon the execution of this contract for the year 1935 and an operation and maintenance charge on the first day of April of each and every year hereafter commencing with the year 1936. Upon the United States notifying the Contractor (or those then claiming under him) of the relinquishment by the United States of the operation, maintenance and control of the Klamath Project, or the portion thereof on account of which operation and maintenance charges are to be paid to the United States hereunder the United States shall be relieved of all obligations to the contractor connected with the operation and maintenance of the project and with the delivery of water to him, and the operation and maintenance charges which the contractor has agreed in this article to pay to the United States shall thereupon be payable to the successor of the United States in charge of operation, maintenance and control, upon such successor adopting this contract and agreeing to be bound by the terms thereof. A change of project control under the preceding sentence shall not affect the obligation of the contractor under Article 6 hereof.

8. Upon any sum of money due the United States by the terms of the two articles next preceding - not paid at the date

of maturity as in said articles provided - the Contractor agrees to pay in addition thereto interest thereon from such maturity date until paid at the rate of six (6) per cent per annum.

9. The irrigation season as herein designated shall extend from April 15th to September 30th of each year.

10. For the purpose of securing a satisfactory water supply therefor as provided in this contract and also for the purpose of providing power under the provisions of Article 9 of the contract of February 24, 1917, between the United States and the California Oregon Power Company, the above described lands of the Contractor are hereby designated as a part of the Klamath Project, but the United States is, as against the contractor, to incur no expense in securing or obligation to secure a seven-mills-per-kilowatt-hour power rate for the Contractor under Article 9 of said contract of February 24, 1917, nor is the United States to be liable for any loss suffered by the Contractor should he fail to secure such seven-mill rate.

11. No Member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this contract or agreement, or to any benefits to arise thereupon. Nothing,

10668

however, herein contained shall be construed to extend to this contract if made with a corporation for its general benefit.

IN WITNESS WHEREOF, the parties have hereto signed their names the day and year first above written.
