2. NAMES OF PARTICIPANTS

The hearings officer reviewing this application is Joan-Marie Michelsen. The applicant appeared and offered testimony. The planning department was represented by Carl Shuck. The recording secretary was Karen Burg.

3. LOCATION AND GENERAL DESCRIPTION OF PROPERTY

The property in question is parcel 3, LP 1-91

Fire protection is provided.

The land is presently undeveloped and unused for any commercial uses.

Sewerage will be provided by a septic system.

The soils are poor.

The water will be provided by a well.

The area is zoned EFU-CG.

4. MATERIALS CONSIDERED

All evidence submitted by the applicant and located in the Staff Report was considered as was the oral testimony given at the hearing on this matter.

5. FINDINGS

The Hearings officer FINDS AS FOLLOWS:

- a. The development of this type of structure is not included in the permitted uses for this zoning, however the LDC permits residences subject to certain findings.
- b. The parcel in question was legally created.
- c. Approval of the requested structure will not create conditions or circumstances that are contrary to the purposes or intent of county planning laws.
- d. Active resource use has NOT occurred on the subject property or the adjacent properties. The property is not large enough for legitimate forestry use, nor is it viable for agriculture.
- e. Fire protection is provided and the threat to spreading fire to resource productive properties is mitigated.
- f. The use of the land in the area is residential.
- g. Adjacent and nearby lands are in small parcels, in highly diverse ownership and many are being used for rural residential living and a large golf course.
- h. The location of a residence on the parcel will not destabilize the existing land use pattern of the area.

- i. The proposed structure is located on land that is generally unsuitable for timber or agriculture considering the size of the parcel, the soil, the flooding and high water table, and the present vegetation.
- j. The site is too small and ownership too divided and the stocking too poor for viable forest management activity. No loss of productive resource land will result and the commercial forest land base of Klamath County is not compromised by the requested use.
- k. There is no Goal 5 Overlay to the area.
- l. As condition to this approval, a written covenant will be recorded which recognizes the rights of adjacent and nearby land owners and operators to conduct farm and forest operations consistent with currently accepted farming practices and the Forest Practices Act of Oregon.
- m. There is no dwelling presently sited on this parcel.
- n. Road access is sufficient.
- o. This property is not under forest or farm deferral.

- b. That the applicant files a restrictive covenant with the county clerk prohibiting the permit grantee and successors in interest from dividing the property or filing any complaint of any type or kind concerning the presently accepted resource management practices and farming uses that may occur on nearby lands devoted to commercial or other resource use.
- c. That the applicant complies fully with fire safety and other siting standards of the Land Use Code as set out in Article 69 of the LDC.
- d. That the applicant receive approval for and develop an on-site well or other source of water consistent with LDC 55.06(C)(4).
