

**BEFORE THE PLANNING DIRECTOR  
KLAMATH COUNTY, OREGON**

**IN CONSIDERATION OF THE REQUEST, LP 8-99, FOR  
HARRIS TO DIVIDE PROPERTY FOR AGRICULTURAL USE**

**1. NATURE OF THE REQUEST:**

The applicant wishes to partition property in conjunction with permitted agricultural uses in the Exclusive Farm Use zone. The parent property is 162 acres and it is requested a division be permitted of this property into two parcels of 80 acres. The Planning Director reviewed this request FEBRUARY 24, 1999 pursuant to Ordinances 44 and 45. The request was reviewed for conformance with Land Development Code sections 54.090 and ORS 215.243.

**2. PARTICIPANTS:**

The application was reviewed by Planning Director Carl Shuck. The Planning Department report was prepared by Kim Lundahl.

**3. LOCATION:**

The property is located south of Crystal Springs Rd., east of Hill Rd., Nuss Lake.

**4. RELEVANT FACTS:**

The property is within the Agriculture Plan Designation and has an implementing zone of EFU-C. The parent parcel is 162 acres in size and is under Farm Deferral. Staff review indicates the property is presently used for grazing and pasture. Access is accomplished via County roads. The property has historically and will continue to be used for agriculture. The property, due to its size and topography contains many soil associations.

**5. FINDINGS:**

All evidence submitted as the staff report, exhibits a - d, and all offered evidence show the approval as set out in Code has been satisfied.

The Planning Director finds this application conforms to the criteria set out in LDC section 54.070 and ORS 215.243 as follows:

1. The parcels as proposed do conform to the typical size of existing commercial farm units surrounding the property. The land use in all compass directions is found to be similar in nature to the use of the subject property. Grazing and pasture are the dominant land uses. These are permitted uses in the Agricultural zones. The proposed parcel sizes are consistent with the

area and continued use as agricultural parcels

B. The proposed parcels are of sufficient size to support the existing or potential commercial farm production. Surrounding farm units range in size from 80 to 650 acres. The average agricultural parcel size is 80 acres.

C. Additional findings as required by section 54 070 include:

1. Each parcel is sufficient in area to support the existing or potential commercial production of farm products when parcel size, soil classification, and typical yields are considered. Each parcel is sufficient in area to support commercial agricultural production and consists of suitable soils. The Planning Director finds the parcels can be operated as viable commercial farm units. The Planning Director specifically finds the parcels created, (30 acres) are economically viable parcels.

D. The Planning Director finds this partition in furtherance of ORS 215.243 since it will continue the agricultural use of the property and not result in a change in the existing land use of the area.

#### 6. ORDER:

Therefore, it is ordered the request of HARRIS for approval of LP 8-99 is granted subject to

1. The applicant must comply with agency conditions and code requirements prior to filing.
2. The applicant must file the approved partition within one year of the date below or apply for an extension of time.

DATED this 24th day of MARCH, 1999

Carl Shuck  
Carl Shuck, Planning Director
