## 5. FINDINGS

The Hearings officer FINDS AS FOLLOWS:

- a. The development of this type of structure is not included in the permitted uses for this zoning, however the LDC permits residences subject to certain findings.
- b. The parcel in question was legally created.
- c. Approval of the requested structure will not create conditions or circumstances that are contrary to the purposes or intent of county planning laws.
- d. Active resource use has NOT occurred on the subject property or the adjacent properties. The property is not large enough for legitimate forestry use, nor is it viable for agriculture.
- e. Fire protection will be provided and the threat to spreading fire to resource productive properties is mitigated.
- f. The use of the land in the area is mixed.
- g. The location of a residence on the parcel will not destabilize the existing land use pattern of the area.

- h. The proposed structure is located on land that is generally unsuitable for timber or agriculture considering the size of the parcel, the soil, the flooding and high water table, and the present vegetation.
- i. The site is too small and ownership too divided and the stocking too poor for viable forest management activity. No loss of productive resource land will result and the commercial forest land base of Klamath County is not compromised by the requested use.
- j. There is no Goal 5 Overlay to the area.
- k. As condition to this approval, a written covenant will be recorded which recognizes the rights of adjacent and nearby land owners and operators to conduct farm and forest operations consistent with currently accepted farming practices and the Forest Practices Act of Oregon.
