WATER PUMP STATION EASEMENT

Klamath Cascade Group, LLC, an Oregon limited liability company (hereinafter referred to as "Grantor"), in consideration of the terms and conditions of this Easement and other good and valuable consideration, the sufficiency of which is hereby acknowledged, does hereby grant and convey to **City of Klamath Falls, Oregon**, a Municipal Corporation (hereinafter referred to as "Grantee"), on behalf of the public, a perpetual Water Pump Station Easement ("H₂O Easement") situated on the property of Grantor described as Parcel 2 of Klamath County Land Partition 12-00, more particularly described as Parcel 2 on attached Exhibit "B," incorporated herein by this reference. The H₂O Easement is more particularly described in attached Exhibit "A," incorporated herein by this reference.

The terms of this H₂O Easement are as follows:

1. The parties acknowledge that a prior easement for ESI Way public right-of-way has been previously granted by Grantor and that said easement also authorized the placement of utilities. During the construction of the Electro Scientific Industries (ESI) facility at the generally northern terminus of ESI Way, it became necessary to install an unanticipated water booster pump station adjacent to the right-of-way in order to provide adequate fire protection services for the ESI facility. The parties acknowledge that the legal description set forth in Exhibit "A" is intended to be an "as-built" description of the existing water booster station facilities.
2. The property of Grantor burdened by this H₂O Easement is described as Parcel 2 of Klamath County Land Partition 12-00, the legal description for which is set forth as Parcel 2 on attached Exhibit "B." This H₂O Easement shall be appurtenant to Parcels 1 and 2 on attached Exhibit "B."
3. This H₂O Easement shall be used solely for a water booster pump station and for installation, maintenance, repair, replacement and use of the station, and the appurtenances thereto. In conjunction with the use of this H₂O Easement, Grantee may construct, reconstruct, maintain and repair all structures, piping, equipment and appurtenances necessary for and incidental to the use of the H₂O Easement area as a water booster pump station.
4. Grantee agrees to indemnify, defend and hold harmless Grantor from any loss, claim or liability to Grantor arising out of use of the H₂O Easement. Grantee assumes all risk arising out of use of the H₂O Easement, and Grantor shall have no liability to Grantee or others for any condition existing

thereon.

5. This H₂O Easement shall be perpetual.
6. This H₂O Easement shall run with the land as to all properties benefitted and burdened by this H₂O Easement, including any division or partition of such property. The rights, covenants and obligations of this H₂O Easement shall bind, burden and/or benefit each party's successors, assigns, heirs or beneficiaries under a deed of trust.

IN WITNESS WHEREOF, the parties have caused this easement to be executed on the day and year written below.
