SECTION ONE

94115

Provider, her successors and assigns, will maintain said reservoir in good condition sufficient to hold and maintain it full of water to its capacity and will equip the reservoir with such fittings and equipment required by Klamath County Fire District No. 1., or its successor, for the sole purpose of providing a water supply for use by fire suppression equipment to extinguish fires in said subdivision on Tract 1332.

SECTION TWO

Provider will use her best efforts to keep said reservoir to full capacity at all times except when reservoir water is being used to extinguish fires. During times when water is being drawn for fire suppression purposes the well and reservoir shall be equipped and maintained so the reservoir water supply can be replenished. In the event that water must be drained from the tank for the purpose of repairing or otherwise servicing the interior of the reservoir the Fire District shall be notified within a reasonable time prior to draining, not less than seven days, so as to enable the Fire District to provide an emergency source of water, including use of Provider's well and pumps.

Should the cost of living index decrease in any relevant five year period the charge for the previous five year period shall be continued for the next five years.
