NOW THEREFORE, THIS INDENTURE WITNESSETH, that State does grant Modified Access Rights as set forth above unto Owner and Owner's heirs, successors and assigns.

The other remaining provisions in the above-mentioned Warranty Deed to State shall remain in full force and effect, and the access rights herein granted shall be subject to all the provisions of said Warranty Deed, as fully as if set forth herein.

The Modified Access Rights granted herein are subject to, and may only be exercised in accordance with, the statutes and administrative rules applicable to access control and road approaches. Such access is contingent upon issuance of an approach road permit, and no access rights may be exercised or construction of an approach road begun unless, and until, a standard Approach Road Permit application is submitted and a permit issued by the Oregon Department of Transportation. The approach road may only be constructed or maintained upon issuance of such permit and in accordance with such permit. If the State constructs the approach road during a highway project, Grantor is required to sign a standard Approach Road Permit to ensure proper operation and maintenance of the approach road.

In construing this document, where the context so requires, the singular includes the plural and all grammatical changes shall be made so that this document shall apply equally to corporations and to individuals.

IN WITNESS WHEREOF, the parties hereto have executed these presents the day and year first written above.
