under, and across the real property referenced above ("Easement" and "Construction Workspace").

NOW, THEREFORE, in consideration of the mutual covenants and agreements set forth herein, it is mutually
agreed by and between the parties hereto as follows:

The Extension of Option shall be subtracted from the Purchase Price, leaving a balance ("Balance"), which Grantee shall pay as hereinafter provided.

7. **Failure to Exercise:** If Grantee does not exercise the Option as provided herein within the Option Period, the Option, and the rights of Grantee shall automatically and immediately terminate without notice and Grantor shall retain the Option Price(s).
8. **Failure to Deliver:** If the Grantor fails to execute and deliver the grant deed for the Easement and Construction Workspace after Grantee exercises the Option, Grantee may elect to recover the Option Price or to seek specific performance of this Agreement.
9. **Damages:** Upon exercise of this Option(s), Grantee and Grantor agree to negotiate the surface damages (including crop loss and timber) and severances to Grantor's property directly resulting from construction of pipeline and related facilities in the Easement and Construction Workspace.

**WILLIAMS PACIFIC CONNECTOR GAS OPERATOR LLC
RIGHT-OF-WAY AND EASEMENT**

On this, the _____ day of _____, 20 ___, for Ten Dollars (\$10.00) and other valuable consideration,

William Ray Ore and Anona M Ore, husband and wife

("Grantor"), whose address is 644 Joe Wright Rd, Klamath Falls, OR 97603, does hereby grant, sell and convey to **WILLIAMS PACIFIC CONNECTOR GAS OPERATOR LLC**, a Delaware limited liability company, P.O. Box 58900, Salt Lake City, Utah 84158-0900 ("Grantee"), its successors and assigns, an exclusive right-of-way and easement ("Easement") to locate, survey, construct, entrench, maintain, repair, replace, protect, inspect and operate a pipeline or pipelines, cathodic equipment and/or appurtenances which may be constructed above or below ground including but not limited to valves and metering equipment; electrical and/or communications cable, underground conduit, splicing boxes; and roads ("facilities") which may be over, under and through the land described below. Grantor warrants that it is the owner in fee simple of the land, situated in the County of Klamath, State of Oregon, to wit:

That certain parcel of land lying in part of the S 1/2 of the NE 1/4 Section 20 Township 39 South, Range 9 East of the Willamette Meridian, and being more particularly described on the attached Exhibit "A-1".

Also known by County Assessor Parcel Number(s):

R889406

Map Tax number(s): **R-3909-02000-01301-000**

A centerline survey description of the pipeline is described in Exhibit "A" attached and made a part of this agreement. The Easement is located approximately along the line that has or shall be designated by Grantee, on a right-of-way 50 (Fifty) feet in width being 25 (Twenty-five) feet on both sides of the centerline of the **36" pipeline** constructed hereunder and which encumbers approximately 1.025 Acres.

This Easement conveys to Grantee the right of ingress and egress to and from, and access on and within said right-of-way, with the right to use existing and future roads for the purposes of surveying, constructing, inspecting, repairing, protecting, operating and maintaining the facilities and the addition, removal or replacement of same at will, either in whole or in part, with either like or different size pipe ("work"). Grantee may use such portions of the property along and adjacent to said right-of-way as may be reasonably necessary during construction of the pipeline, and as clearly defined and shown in Exhibit "A".

Grantee agrees that within a reasonable time following the completion of its work and subject to weather and/or soil conditions, Grantee shall, as near as practicable, restore said right-of-way to its original contour and condition. Grantee agrees to compensate Grantor adequately for damages which directly result from its work, including loss of business, timber, growing crops, pasture and livestock. Any other recognizable damages to other real or personal property that resulted from its work shall be repaired by Grantee, or the Grantor shall be compensated for such repairs. Grantee shall have the right to cut and to keep clear without payment of damages all trees, brush, native growth or foliage and other obstructions that may, in the Grantee's opinion, endanger, hinder or conflict with the construction operation, inspection, protection, maintenance and use of said facilities.

Grantee shall possess the above-described rights and Easement, together with all rights necessary to operate, protect and maintain the facilities within the right-of-way granted to the Grantee, its successors and assigns. Grantee may assign the rights and Easement granted under this agreement, either in whole or in part, subject to the terms of this grant, with such rights and Easement deemed to be covenants running with the land and to be binding upon Grantor, its heirs, legal representatives and successors in title.

Grantee may at any time permanently abandon said right-of-way and Easement and, at its discretion, may remove or abandon in place the improvements constructed on it. Upon such abandonment action, Grantee may, at its discretion, execute and record a reconveyance and release of this Easement whereupon this right-of-way and Easement with all rights and privileges mutually granted shall be fully canceled and terminated.

Grantor reserves the right to use and enjoy said property except for the purposes granted in this Easement. Any pipeline constructed by Grantee across lands under cultivation shall, at the time of construction, be buried to a minimum of 5 (five) feet of cover from top of the pipe as not to interfere with such cultivation. Grantor shall have the right to cultivate, work, plow, harvest and use the land granted within the Easement so long as it shall not hinder, conflict or interfere with Grantee's surface or subsurface rights or disturb its ability to operate, maintain and protect its facilities. No road, reservoir, excavation, change in surface grade, obstruction or structure shall be constructed, created or maintained within the described Easement area.

Grantee shall indemnify and hold Grantor harmless from and against any and all loss, damage, or injury which may result from the construction, operation and maintenance of the facilities; provided, however, that said loss, damage, or injury does not arise out of or result from the actions of the Grantor, (his/her) agents or employees.

Grantor agrees to indemnify Grantee against any environmental liability that predates the date of this Easement or that was caused solely by the Grantor's actions or inactions.

Grantee shall have the right to discharge or redeem for Grantor, in whole or in part, any mortgage, tax or other lien on said land and shall be subrogated to such lien and rights.

It is mutually understood and agreed that this Easement and the attached exhibits, as written, cover and include all of the agreements and stipulations between the parties and that no representations or statements, verbal or written, have been made modifying, adding to or changing the terms of this agreement.

The terms, conditions and provisions of this agreement shall extend to and be binding upon the heirs, executors, administrators, personal representatives, successors and assigns of the parties.

IN WITNESS WHEREOF the parties have EXECUTED THIS CONVEYANCE AND AGREEMENT THIS _____ DAY OF _____, 20____.
