B. The Easement Agreement pertains to certain real property more particularly described in Exhibit B hereto ("**Property**");

C. Pursuant to the Easement Agreement, Grantee will, among other things, construct a pipeline, cathodic equipment and/or appurtenances, which may be constructed above or below ground, including but not limited to valves and metering equipment, electrical and/or communications cable, underground conduit, splicing boxes, and roads (collectively, the "**Facilities**") and, in connection therewith, requires certain construction workspace ("**Construction Workspace**"). NOW THEREFORE,

It is understood and agreed by Grantor and Grantee that the Construction Workspace is to be used by Grantee, its affiliates, and their contractors and designees in connection with the construction of Grantee's Facilities. Upon completion of the above described work and final restoration of the Construction Workspace, Grantee's interest in said land will revert to Grantor, except as provided by the Easement Agreement.

Grantee agrees that immediately upon completion of its work and subject to permits, weather and/or soil conditions, Grantee will as near as practicable restore said Construction Workspace to its original contours. At the end of the first three (3) months following completion of said construction, permits and weather permitting, Grantee shall inspect the Construction Workspace area and shall immediately remedy any settling that may have occurred thereupon. At the election of Grantee, the term of this Agreement may be extended by two years following the Expiration Date in exchange for an additional rental payment ("**Extension Payment**"). The Extension Payment shall be calculated by increasing by five percent (5%) the initial rental payment made in exchange for this Agreement.
