RIGHT OF WAY EASEMENT

For value received, **OR Solar 3, LLC**, a Delaware limited liability company ("Grantor"), hereby grants to **PacifiCorp**, an Oregon corporation ("Grantee"), a perpetual (subject to Section 3), non-exclusive easement for the construction, reconstruction, operation, maintenance, repair, replacement, enlargement, and removal of Grantee's electric power transmission, distribution and communication lines and all necessary or desirable accessories and appurtenances thereto, including without limitation: supporting towers, poles, props, guys and anchors, including guys and anchors outside of the Easement Area (as defined below); wires, fibers, cables and other conductors and conduits therefor; and pads, transformers, switches, vaults and cabinets (collectively, the "Electric Facilities and Improvements"), on, over, across or under the surface of the following real property (the "Property") of Grantor in Klamath County, State of Oregon, more particularly described as follows on Exhibit "A" and as shown on Exhibit "B" (the "Easement Area") attached hereto and by this reference made a part hereof:

A portion of the Property: Assessor's Map No. 41S 12E 09

Parcel No. 900

1. Interconnection Agreement. On real property adjacent to the Easement Area, Grantor is developing an electric generation facility ("Generation Facility"). Grantee and Grantor have entered into a Standard Small Generator Interconnection Agreement, dated February 3, 2016, designated as Generation Interconnection Queue Number, Q661 (Turkey Hill) (as amended from time to time, the "Interconnection Agreement").
2. Grantee's Use of Easement; Certain Prohibitions on Grantor's Use. The rights to the Easement Area granted herein are intended to enable Grantee to perform its obligations under the Interconnection Agreement and include the right of ingress and egress, for Grantee, its contractors, or agents, to the Easement Area from adjacent lands of Grantor for all activities in connection with the purposes for which this easement has been granted; and together with the present and (without payment therefor) the future right to keep the Easement Area and adjacent lands clear of all brush, trees, timber, structures, buildings and other hazards which might endanger Grantee's facilities or impede Grantee's activities.

At no time shall Grantor place, use or permit any equipment, material or vegetation of any kind that exceeds twelve (12) feet in height, light any fires, place or store any flammable materials, on or within the boundaries of the Easement Area. Subject to the foregoing limitations, the

9/27

surface of the Easement Area may be used for other purposes not inconsistent, as defined by the Grantee, with the purposes for which this easement has been granted.

3. Term and Termination.

a. The duration of this Easement shall be for an indefinite term, provided, however, subject to the survival of limited easement rights described in Section 3.b below, that this Easement shall terminate upon written notice to Grantee by Grantor or Grantor's successor(s) in interest, which notice may be given by Grantor or Grantor's successor(s) in interest on or after the date any of the following occur: (i) in the event Grantee shall fail to use the Easement Area for the purposes stated herein for a continuous period of six (6) months at any time after the initial installation; (ii) in the event that Grantor ceases selling power to PacifiCorp for a period of six (6) months; or (iii) the Interconnection Agreement is terminated and not renewed. Notwithstanding the termination of this Easement, the rights granted Grantee under this Easement shall survive to the extent reasonably required in order for Grantee to perform and complete the removal of its Electric Facilities and Improvements as contemplated under Section 3.b below.

b. On termination of this Easement, Grantee shall, within a reasonable period, remove its Electric Facilities and Improvements at Grantor's sole cost and expense, and, upon payment in full of any outstanding amounts due from Grantor to Grantee, Grantee shall execute an easement termination agreement or quit claim deed, in a recordable form reasonably satisfactory to Grantor or Grantor's successor(s) in interest, sufficient to remove this Easement as an encumbrance on the Property's title.

4. Relocation. Grantor agrees that in the event Grantee is required to relocate or remove its Electric Facilities and Improvements from the Easement Area, Grantor will be responsible for the sole cost and expense associated with any relocation or removal, as agreed upon in the Interconnection Agreement.

5. Permitting. Grantor hereby warrants and represents that it has secured, or will secure, all necessary permits and approvals for the construction and operation of the Electric Facilities and Improvements, except to the extent otherwise agreed to in writing by Grantee, including without limitation as may be agreed upon in the Interconnection Agreement. In the event Grantor fails to secure any such permitting or approvals, Grantor is responsible for remedy at its sole cost and expense and will further indemnify, defend and hold Grantee harmless in connection with any such permitting defects.

6. Environmental. Grantor represents, warrants, and covenants to Grantee that, except as otherwise previously disclosed to Grantee in writing and to the best of Grantor's knowledge: no substance defined, listed, or otherwise classified pursuant to any federal, state, or local law, regulation, or requirement including, without limitation, the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended and the Resource Conservation and Recovery Act ("Environmental Compliance Laws") as hazardous, toxic, polluting, or otherwise contaminating to the air, water, or soil, or in any other way harmful or

threatening to human health or the environment ("Hazardous Materials"), exists on or has been released, generated, treated, stored, used, disposed of, deposited, abandoned, or transported in, on, under, from, or across the Easement Area.

Grantee will not install, use, generate, store, transport, or dispose of in or about the Easement Area any reportable quantities of Hazardous Materials without Grantor's written approval, except that Grantee may use or store limited quantities of such Hazardous Materials as are customarily used in Grantee's business operations so long as Grantee complies with all Environmental Compliance Laws.

7. Liens. Subject to reimbursement from Grantor as provided in the Interconnection Agreement and as may be provided in any other written agreement between Grantor and Grantee, Grantee shall pay as due all claims not disputed by Grantee in good faith for work done on and for services rendered or material furnished for the preparation, construction, reconstruction, operation, maintenance, repair, replacement, enlargement and removal of the Electric Facilities and Improvements in order to keep the Easement Area and Property free from any liens placed by Grantee's contractors.
8. Jury Trial Waiver. To the fullest extent permitted by law, each of the parties hereto waives any right it may have to a trial by jury in respect of litigation directly or indirectly arising out of, under or in connection with this easement. Each party further waives any right to consolidate, or to request the consolidation of, any action in which a jury trial has been waived with any other action in which a jury trial cannot be or has not been waived.
9. Counterparts. This Easement may be executed in counterparts, each of which shall be deemed to be an original, but all of which when taken together shall constitute one and the same document.
10. Survival. The provisions set forth in paragraphs 3 through 10 hereof shall survive the termination or abandonment of this Easement.

The rights and obligations of the parties hereto shall be binding upon and shall benefit their respective heirs, successors and assigns and shall run with the land.
