RELEVANT REVIEW CRITERIA, FACTS AND ANALYSIS:

This proposal is being reviewed according to the provisions of CDO Sections 13.005-13.055 regarding Vacations and Replats.

A. Criterion: Consent of the owners of the requisite area has been obtained.

Facts and Analysis: Consent of all abutting property owners has been obtained. No written objections from property owners within the requisite noticing area have been received as of February 7, 2020.

Proposed Finding: Consent of abutting property owners has been obtained and no written objections from property owners within the requisite noticing area have been received. This criterion is met.

B. Criterion: Notice of the proposed vacation has been duly given.

Facts and Analysis: Notice of the Planning Commission public hearing was mailed to 14 area property owners on January 8, 2020 and published in the Herald and News on January 15, 2020. Notice of the City Council public hearing was mailed to 14 area property owners on January 28, 2020 and published in the Herald and News on February 2nd and February 9, 2020. Notice of the proposed alley ROW vacation and public hearings was additionally posted on the subject site at both ends of the alley ROW. Per CDO Section 10.625 (B), Notice of Hearing on Vacation Petition, a physical notice is to be placed near each end of the proposed vacation which staff completed.

Proposed Finding: Notice of the proposed vacation was given by mail, published in the local newspaper, and posted on-site. This criterion is met.

C. Criterion: The public interest will not be prejudiced by the vacation of such plat or part thereof.

Facts and Analysis: Through reviewing agency and property owner outreach, no feedback indicating adverse public impact has been received. A natural gas service line (Avista) within the subject alley ROW has been disconnected. There is a City wastewater line traversing the subject alley ROW that is to remain in-ground but become private if the proposed vacation is approved. Through future development, the applicant may choose to utilize the private sewer line or abandon in-place. Neither action is detrimental to the provision of City wastewater utility services. Future and additional coordination will be completed with all utility providers at the time of project application review.

Proposed Finding: No feedback has been received indicating adverse public impact. This criterion is met.

D. Criterion: The vacation conforms to the Comprehensive Plan, all applicable provisions of Chapters 10 to 14 of the City Code, and any applicable street plans.

Facts and Analysis: The vacation of the subject alley ROW, if approved, will not eliminate access to the property or negatively effect surrounding street connectivity. While a land partition is to be completed to consolidate or replat the property's 26 existing lots into one, all 26 lots presently have street frontage along either Main Street, Esplanade Avenue, Wall Street, or N. Broad Street. The subject alley is classified as lesser than a local street and not specifically included within the Urban Area Transportation System Plan (TSP).

The Comprehensive Plan has little bearing or guidance to assist with vacation review.

Additional and more detailed review of CDO provisions will be completed at the time of property partition and development.

Proposed Finding: The vacation conforms to the Comprehensive Plan and applicable provisions of Chapters 10 to 14 of the CDO and any applicable street plans. This criterion is met.
